

For Agincourt additional Protocols

As well as following all City of Toronto Guideline and filling out your Covid questionnaire additional protocols at Agincourt include:

Parking – see photograph, but park is south of the normal (which is being used for construction) parking lot for the arena

Park as far northeast as possible (see photo)

Entrance to the building is at the corner of Glen Watford and Heather – there is NO parking on the streets most of the time

Sign in desk as you enter the building

If possible, please use the same team screening form as used for Centennial – the front desk person will then check attendance

Rink 1 entrance is to the left of the desk which Rink 2 is straight past the desk and up the hallway

Change rooms are unavailable for practices, only games

Regardless, if used during games there is space on the bleachers which are located just outside the ice (see photo)

Bleachers will be marked (these will be your change rooms – locker #1 will be bench #1, and so on)

For skate tightening, use as many of the Bleachers as you can (all four) but leave your bag to your assigned bench

Once ready, stand at/near your bleacher as the other team exits and the ice is resurfaced

The team benches will be marked with tape

If there are spectators, there will be tape marked off to distance along the boards/glass

Players should exit through the doors in the corner of rink 2

Please check frequently for any change to this
